

### PRINCE2®

PRINCE2 is internationally recognised as the leading 'best practice' project management approach within government and the private sector; leading organisations have already introduced PRINCE2 world-wide. It addresses the needs of management by providing the governance structure for effective project management and control.

The focus is on the key principles, processes, activities and techniques needed for successful project management, providing those responsible for planning and managing projects with a structured and practical approach for projects of all sizes and types.

PRINCE2® is a Registered Trade Mark of the Office of Government Commerce in the United Kingdom and other countries; The PRINCE2 Swirl logo™ is a Trade Mark of the Office of Government Commerce.

## PRINCE2® MASTERCLASS

This highly interactive workshop takes newly-qualified PRINCE2 Practitioners and builds on their examination success, turning theory into practical experience. This intensive masterclass immerses participants directly in the initiation, management and control of a PRINCE2 project, in a safe and supportive environment. This will build understanding of the real world application of PRINCE2, under the guidance of one of our most experienced PRINCE2 Project Managers.

### Course Objectives

*This course will enable delegates to:*

- Apply the key principles, processes, activities, themes and techniques of PRINCE2
- Fully understand the links between the various management products and the activities and techniques involved in creating them
- Develop the skills of an effective PRINCE2 Project Manager
- Be confident in their ability to initiate, manage and control a PRINCE2 project within an organisation

### Who Should Attend

*Those who are likely to be involved in planning and managing projects, including:*

- Project Managers
- Team Leaders
- Project Assurance
- Those wishing to become an effective PRINCE2 Project Manager

**Course Duration:** 2 days

**Course Code:** P2M

### Practical Work

The masterclass is based on the production of key PRINCE2 management products and the conduct of informal and formal meetings with key players in a sample project. Interactive tutored sessions encourage delegates to create solutions for this project scenario by seeking appropriate direction and applying theoretical knowledge and real experience.

### Detailed Course Content

#### **PRINCE2 Workshop Introduction**

Introduction to PRINCE2 Masterclass and objectives

#### **Starting up a Project**

Overview and refresher
